

I benefit from listening to the XM Satellite Radio and its traffic and weather channels. XM Satellite Radio provides excellent variety and quality that are not available on AM and FM stations. It should not be up to the National Association of Broadcasters to dictate what I can or can not listen to because I pay for XM Satellite Radio services. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming I deserve and demand.

Sincerely
Jerry L Todd (FREEDOM)
